# “What’s next?”

Our goals for Slick Entertainment:

- ⊕ Self fund our own IP
- ⊕ Stay Small

INDEPENDENT  
GAMES SUMMIT

# Self Evaluation

What do we have experience with?

- ⊕ Building technology
- ⊕ Shipping games

What do we think we can improve at?

- ⊕ Business related tasks
- ⊕ Game design
- ⊕ Marketing & PR

INDEPENDENT  
GAMES SUMMIT

# Game Requirements

- ④ Target XBLA
- ④ Focus on execution
- ④ Scalable art
- ④ Fast iteration

INDEPENDENT  
GAMES SUMMIT

# Video!

# Art & Programming

- ③ Vertical Slice approach (1 asset of each)
- ③ Goal: Quick Changes (iteration)
  - Game design
  - Art assets
  - Tools
- ③ Polish = iteration (+ focus)
- ③ C# Tools
  - Quick
  - Stable
  - Accessible (even for tech. Artist)
- ③ C++ On console (performance)

INDEPENDENT  
GAMES SUMMIT

# In-house Engine

- ④ Goal: Build our own technology
- ④ Why?:
  - Enjoyment (Tech)
  - Specialized engine
  - Fix priority problems
- ④ Is this always the right decision for everyone?

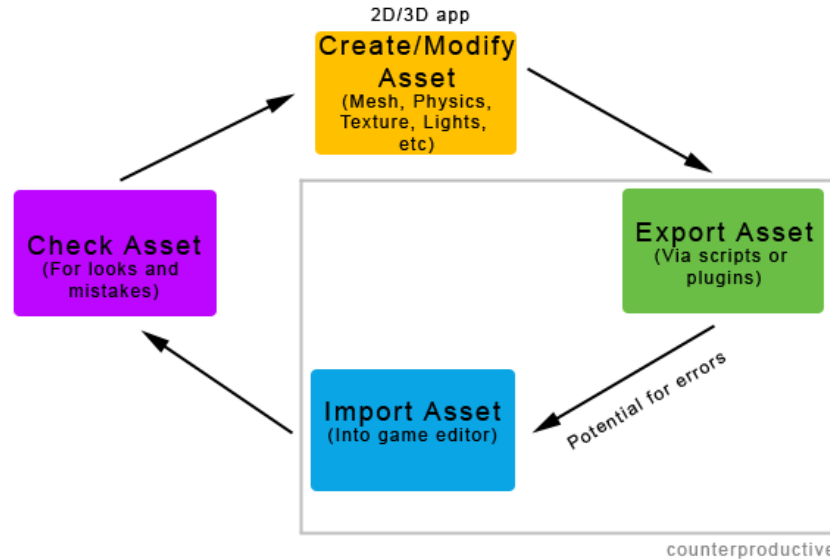

INDEPENDENT  
GAMES SUMMIT

# Old Art Pipeline

- ⊕ Lots of exporting
- ⊕ Not good for iteration
- ⊕ Works ok if you have lots of man-power
- ⊕ More broken assets

INDEPENDENT  
GAMES SUMMIT

# Improved Art Pipeline

- ④ De-coupling of data
  - Minimal exporting
  - Realtime iteration (in game editor)
  - The polish-process became fun!
  - Higher quality gameplay and art

# Decoupling Data

③ 1. Deferred Shading

③ 2. Pathfinding

③ 3. Dynamic Objects (physics, particleFX, sounds, etc)

③ 4. Car Physics

③ 5. Mission Settings (Gameplay)

INDEPENDENT  
GAMES SUMMIT

# Conclusion

- ③ Minimal outsourcing
- ③ Vertical slice saved us time
- ③ Realtime feedback increased iteration
- ③ Iteration leads to better polish
- ③ Making our own technology paid off
