

# The Holy Grail of Multiplayer Level Design

## Levels for **Competitive** and **Casual** Play

Andrew Yoder  
Level Designer, Hi-Rez Studios

# About me

- Unreal Tournament Modder
- Hi-Rez Studios Level Designer

# Definitions

- **Competitive** - professional tournaments
- **Casual** - recreational play

# Definitions

- **Competitive** - professional tournaments
- **Casual** - recreational play

But also:

- The *motivations* of **competitive** play
- The *motivations* of **casual** play

# Definitions continued

- **Competitive** - professional tournaments
- **Casual** - recreational play

**The Holy Grail** - a way to serve both

# Greatest Multiplayer Maps of All Time?

# CTF-Face

## "Facing Worlds"

### UT99

# DM17

## "Longest Yard"

### Quake 3: Arena

# "Blood Gulch"

## Halo: Combat Evolved

- Centered on core mechanics
- Limit zoning, allow recovery
- What you see is what you get

# Principles of a Paladins Level

- Strategic variety
- Simplicity
- Centered on core mechanics
- Limit zoning, allow recovery
- What you see is what you get

# Results of these iterations:

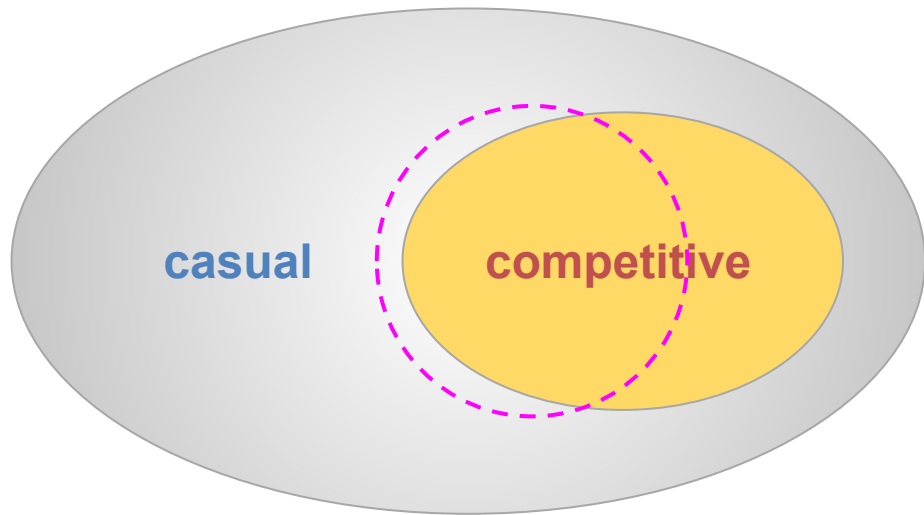

- The team felt better about the maps
- Metrics were up
- Healthier competitive scene
- But player feedback was neutral/positive

# Results of these iterations:

What we thought we did

# Results of these iterations:

What we thought we did

What we actually did?

# What (some) players want

# What (some) players want

- Bigger maps, more variety

# What (some) players want

- Bigger maps, more variety
- Asymmetry

# What (some) players want

- Bigger maps, more variety
- Asymmetry
- Stronger themes

# What (some) players want

- Bigger maps, more variety
- Asymmetry
- Stronger themes
- Map dynamics

# Test Queue

# Test Queue

- Better understand our audience

# Test Queue

- Better understand our audience
- Test specific experiments

# Test Queue

- Better understand our audience
- Test specific experiments
- Reduce risk of creating lukewarm maps, “false grails”

# "Sandbridge"

# "Sandbridge"

"Sewer"

"Sewer"

# "Splitstone Quarry"

# The audience check:

# The audience check:

- Who all are we designing this for?

# The audience check:

- Who all are we designing this for?
- What are their needs?

# The audience check:

- Who all are we designing this for?
- What are their needs?
- How does our design serve those needs?

# The audience check:

- Who all are we designing this for?
- What are their needs?
- How does our design serve those needs?
- What steps can we take to answer these questions?

# Thanks!
